Through an oversight on the part of Special Issue Co-Editor Scott O. Lilienfeld, Dr. Joel Weinberger was not listed as a co-author of the article “In Praise of Clinical Judgment: Meehl’s Forgotten Legacy,” in the Introduction (p. 1205) to the *Journal of Clinical Psychology* Special Issue in Honor of Paul E. Meehl (Vol. 61, Issue 10, October, 2005). The Introduction should have noted that this article was co-authored by Drs. Drew Westen and Joel Weinberger.

Dr. Lilienfeld sincerely apologizes for the error.
